Many Things Are Meant

By many dealers who claim to handle groceries. When they advertise Good Groceries, no mention is made of PRICE. When price is mentioned QUALITY IS OVERLOOKED. Again, sometimes they dwell on the virtuees of a LARGE STOCK. In this case no claim is made to carrying FRESH GOODS.

We Preach the Three Main Virtues of Groceries—

Quality

Quantity

Price

They are mentioned in their regular order and the happy combination is causing hosts of pleased patrons at our store.

## NEVADA AS IT IS AND WILL BE.

There is a quiet progress going forward in all parts of the State, which is doing more effective work than the most close observer of events can gather from casual observation It has been the rule in Nevada from the time it became a State that development has been sporadic and not general.

The causes which were present to produce spasmodic industry in a few localities are better understood when they have ceased to have a controlling influence over industries than they were when opposition was everywhere present from these causes.

Every mining camp and town in the State had upon it decay as a result of the blighting frosts which continued to fall in Nevada. When the late Huntington frosts, which brought disease and death to energy and industry, had ceased to fall the native vitality there is in the people made an appearance to remove financial and industrial decrepitude which prevailed everywhere.

There is not anything heard in the State from its eastern to its western boundary but details, descriptive of improvements and of valuable discoveries of mineral deposits made by those engaged in mining industries.

There has come in the last year an unlooked for change in the State's mining industries, which consists more particularly in an unexpected increase in discoveries of valuable mining properties Some of these properties are fabulously rich in precious metals

Should discovery and development continue to equal their beginning there will be more excitement in the financial world over the wealth of mines than was caused by the wealth of the Comstock with its hundreds of millions

There is one condition necessary to the speedy development of the State, which is freedom of action under favorable commercial relations That one condition it is believed will be present in connection with favorable commercial environment.

The present and the late past point to a common sense application of business methods in the State, which will be the reverse of business direction as it has been applied in former years When the fullness of commercial change comes, which it is reasonable to believe is awaiting the State under its present management, there will be in the future unlimited development and improvement which will astonish those who have been led to believe that Nevada has no fertility in its soils, or mineral wealth, other than was in the Comstock.

It is reasonable to believe that there will be favorable action taken by the general government through appropriations made by the next Congress to aid in conserving for future use the flood waters that flow from the mountains and higher parts of the basin. These waters, when utilized, will bring in their train more wealth and beauty than the imagination can picture except in a genral way through an increase of green fields, fine roads and fine houses enbowered in flowers and foliage. These being in a line of comforts which belong to a prosperous people in a prosperous and rich country and are among the substantial things of happy homes.

There are other considerations which flow from these, that may be classed among the substantial things of life which will come to enlarge and elevate the mind to a plane equal to the natural altitude of its valleys and hills.

Among these elevating conditions or things will be increased means to secure a higher education which is and continue to be a prime necessity in Nature's chief laboratory where all nature present facts for solution through applied science.

The possession of means to secure elevation to the higher planes in life will be a result of natural wealth which will not be otherwise than plentiful where nature has made it so abundant as it is in Nevada. When a few of the gems laid away by Nature in its portfolio are mentioned, a beginning is scarcely made to unfold the value and beauty there is stored away in its lap.

When these values have been exchanged to bring or produce the beautiful there is in Nature, not to mention the beauty there is in Art, it will be a Paradise of Nature's making in the hills and valleys of the basin, where universal sunshine in a mild and healthful climate will aid to develop and adorn the garments which stored waters have woven among its rocks and upon its sands.

The valley of the Jordan is described in ancient history as a land "flowing with milk and honey." When the extensive natural wealth of Nevada is reviewed it is ascertained that there has been added to the wealth of the State an abundance of milk and honey which brings it to the standard in wealth given to the most famous land there is mentioned in history as it can truthfully be said that the basin flows with milk and honey.

These fountains of wealth in Nevada like its mines, have not yet been opened as they will be when winter snow and rain waters are flowing in its valleys and upon its hillsides in the summer and autumn of the years, as they roll by adding wealth and glory to the most despised land there is upon the earth, which is a result of the work of those who carried away its wealth in its earlier history.

## ABOUT MINE AND MINER

### Notes Gathered From Exchanges About This Industry.

An important ore body was struck in the Fraser & Molino mine on Adams Hill, near Eureka, recently, which promises to develop into a bonanza The find was made about forty-five feet from the surface The mine is owned by Governor adler, Commissioner Frazer and Juan Molino. It is at present being worked under lease by Juan Molino, Charles Allen and Frank Rodgers, who commenced work in an old shaft at the south end of the claim, and they have been quickly rewarded.

Between five and six hundred placer mining claims were located near Summer and Albert lakes, in Lake county Oregon last week by a company from Lovelock Nevada The supposition is that they were located for the borax that exists there.—Sierra Valley Record

Several new veins of coal, several inches in thickness, have been struck at the coal mine and it is thought they will all come together deeper down Work is going on rapidly and all indications so far are favorable.—Elko Independent.

### TONAPAH NOTES.

The first issue of the Tonapah Bonanza has reached this office and is a bright and neat sheet In it we find the following interesting items.

We are having winter weather.

Tonapah can boast of a female population of thirty

Flour costs $2 per sack of 50 pounds. Potatoes 4 cents a pound

Water sells for four cents a gallon. Whisky, $5 for the same amount.

Tonapah is a healthy town. Four barrels of whisky are drank every week.

This is the best camp on the Pacific Coast today There are no knockers in it

Four banking games are being operated in town at present, with another one about to start

The Frank Golden leasers are taking out ore that will average $1000 per ton. And they have lots of it

Men looking for work will do well to keep away from Tonapah. Those who have money and want to lease come along.

The citizens' committee held a meeting last Tuesday evening and elected officers The next man that thinks he is a bad one and can cut a fellowman down to his size or shoot another full of holes, unless in self-defense, will find that they are not living in a town like the early Bodie. We are agoing to have a quiet town, and the sooner the Jimmy Freshes realize this fact the longer they can remain citizens of Tonapah A word to the wise is sufficient

### A QUIET TOWN.

A resident of the Comstock, tired of the monotony of life in Virgina, tied two cats together by the tails the other morning and threw them over a clothes line, but was disappointed as they stubbornly refused to fight He left the place in disgust, but returning a few minutes later, found them still hanging over the line fast asleep. He swears that something has got into the Comstock atmosphere that paralyses the activities of everyone that breathes it. —Report.

### ..CARNIVAL BUTTONS..

Ed Fatterson has received the concession for souvenir buttons at the Carson carnival. They are very fetching in design. They can be seen at The Golden's Company store.

Messrs Warfel and Blanchet, who have been in charge of the Nevada Business College at Carson, have gone to Texas and the institution will hereafter be under the direction of the Chamber of Commerce

## SAGEBRUSH OCCURRENCES

### Interesting Happenings in the State Gleaned From Exchanges.

The work of tearing up the side track at the rear end of the C. & C. mine will shortly be commenced to make room for the ore house. Grading for the latter will be started as soon as the tracks are removed.—Reuort.

The dress of the Queen of the Carnival will cost over $200 and will be presented to the Queen. It will certainly be a worthy souvenir of a most happy occasion.

There is a clash of authority between the city trustees and the fire companies of Carson. A few days ago the city council appointed the Sheriff fire marshal, to have full control of the fire department in time of fire, and at meetings of the fire companies Tuesday night resolutions were passed directing members "not to recognize or obey any person, or persons, as officers, except those duly elected by ourselves.

F. C. Gerlach has been appointed postmaster at Deep Hole, Washoe county, vice James Raser, resigned.

The Italian track walker who was struck by a train near Carlin Wednesday morning died in the hospital in Elko yesterday.

Edward B. Harris of Virginia City has been granted a pension of $6 per month. He served in the war with Spain.

A young son of Superintendent Healey of the April Fool mine at De Lamar, Lincoln county, was accidentally shot through the arm a few days ago while playing with a 22-calibre rifle.

John Ross and Philo Knapp have been held to answer at Virginia City charged with attempting to murder Pete Malloy. Their bonds were fixed at $1000 each.

Owing to a scarcity of beef cattle, meat markets at Lovelock have been compelled to close temporarily.

Constable McAdams accidentally shot himself at Carson Monday, his pistol dropped out of his pocket and went off, the bullet passing through his left foot The wound is painful, but not serious, as on bones were broken.

The Carson Weekly's San Francisco correspondent says: Miss Annie McLaughlin formerly of Reno, who has been head nurse at the Presidio, was almost suffocated by the burning of the hospital, which was destroyed by fire last Tuesday

### NOTICE.

A meeting of the executive committee of the Nevada State Agricultural Society will be held on Saturday nexxt, June 22d, at 2 p m, at the society office over Bank of Nevada. As this will be an important meeting a full attendance of this committee is requested

## Beauty is Health.

Walnut Lake, Ark., June 8, 1900.

I thank you for the benefit I received from your advice and the Wine of Cardui I took. In my terrible condition. My life was no pleasure to me at all and I was of no use to anybody. After receiving your advice and medicine I commenced taking it and began immediately to improve. The pains left me and the menses, which came at the correct time, continued three days. I have gained strength and my weight has increased. My husband says the medicine has made me better looking than ever before.

Mrs. LIZZIE MANNELL.

Womanly health means bright eyes, rosy cheeks, clear complexion and elasticity of form This is the youth unmeasured by years—the beauty of perfect womanhood. Beautiful women are happier and get more out of life than their sisters whose faces indicate suffering Wine of Cardui made Mrs. Mannell "better looking" and infinitely happier because it cured her of those terrible pains. But she is no exception.

WINE OF CARDUI

is giving thousands of women health, beauty and freedom from the dragging pains which made their lives so miserable. Wan faces, haggard eyes and emaciated forms are the results of suffering. What suffering can compare with the torture of irregular menstruation, leucorrhoea and falling of the womb! Beauty flees quickly before the ravages of such disease. The sharp pains of falling of the womb deepen the crow tracks in the face. Menstrual irregularities rob the eye of its fire and the complexion of its transparency. Leucorrhoea drains the body of its strength, but Wine of Cardui restores the natural beauty, brightens the eye, clears the complexion, rounds out the figure and brings back the vigor of health. Every druggist in this city handles $1.00 bottles of Wine of Cardui.

# THE MODOC LYNCHING.

### The Grand Jury Has Finished Its Labors—Only a Small Mob.

As a result of the investigation of the Modoc County Grand Jury into the Lookout lynching cases, three men are behind the bars of the Modoc County Jail.

The Grand Jury completed its labors last Wednesday evening, and immediately afterward Sheriff Street started for Lookout, returning next day with Robert Leventon, J. W. Brown and Isom Eades. These three are all that have been brought here so far, and it is not known whether there were any more indictments brought in by the Grand Jury or not.

The arrest of these men was a great surprise to them and their friends, and the residents of Lookout are looking with anxiety for who will be the next. The arrests have caused quite a shadow to fall over the town of Lookout, as these three men were considered to be among the best citizens of the place.

The men will await trial without bail, and every effort is being made by the prosecution. More arrests will probably follow in a few days.

The authorities claim that Leventon, Eades and Brown are the leaders of the mob, and that there were not more than twelve or fifteen men connected with the horrible crime.

## Want to Be Like Whites.

According to the Examiner, the Washoe tribe of Indians is about to give up all its traditions, dating back as far as legend chronicles about to give up its medicine men, its painted faces, its wickee-ups and its entire mode of living and become "all same white man."

It proposes to eradicate every race tenet at one stroke proposes to leave behind it all that has been characteristic of it in the past and adopt the ways and customs of the white people. Last Sunday's Examiner has a full page illustration and write up of Captain Pete, his seat of government, his present home and the new house he intends to build when he becomes a white man.

Captain Pete realizes that conditions have changed, that the struggle for existence has taken on new phases and that the Indian must change to meet those phases, else will he perish.

## A Property of Great Value.

Harry Curtz, foreman of the Curtz and Evans mine at Loope, Alpine county was in Reno yesterday hiring five additional men to work in the mine.

This property is near the old Monitor camp It consists of two ledges, one of good size carrying $10 value in gold sulphurets and the latter from six inches to three feet in width, running $20 a ton in free gold

The lead has been tapped by a 300-foot tunnel and ore is being stoped rapidly. A ten stamp mill is kept in constant use. This is becoming one of the most valuable mines on the eastern slope of the Sierra.

## Earl Russell and His Lady.

The Earl Russell, about whose matrimonial difficulties the associated press is making such a row, was on the Comstock last summer, says the Report. He was chiefly noticeable for a pair of brilliant blue trousers that balked half way down his legs—"high-waters" in fact—and a very black pipe that was loud, and long in the reach. Mollie Cook, or Summerville, with whom he is alleged to have committed bigamy through the medium of a Reno marriage was with him at the time of his visit here—a dumpy woman who wore a Tam o'Shanter and smoked cigarettes. Her most striking personal quality was her intense ugliness, she being nearly as homely as the noble lord. All who saw them will unite in saying that they probably eloped from spite.

## The Next Attraction.

The Reno Vaudeville Company will appear at the opera house on the 28th instant, and will present all of the latest songs, dances and gags of the present time.

An especial feature will be made of the singing—and the best singers in the town are enrolled in the company. Among them may be mentioned W. L. Hewitt, Will Lunsford, Lester Merrill, Ed. Lunsford, Fred White and others and that the singing will be up to professional work goes without saying.

This line has been under the management of Mr. Merrill, and he has taken exceptional pains to see that the singing and the accompanying music will be all that could be desired.

Rehearsals are being nightly held and as a result the good people of the town may expect something out of the ordinary when the curtain rolls up on the evening of the 28th.

Reserved seats are on sale at the usual place and be sure that you get in before all the choice ones are gone.

The lady receiving the highest number of votes in the State will be declared elected Queen of the Carnival, and the highest in each county will be maids of honor.

There will be plenty of rivalry and Reno says she is going to name the Queen. Reno has any number of handsome women who would certainly honor the occasion.
